Subject: Confirmation of Verification Role and Agreement with Framework Arrangement

Dear Partners,

On behalf of UNDP Armenia, I would like to formally confirm our role and position regarding the collaborative pilot initiative between Fondation Valery, Elk GMBH, and Plastiks, under the framework of the UNDP Armenia – Plastiks Blockchain Traceability Pilot.

UNDP Armenia acknowledges and agrees with the structure of the arrangement established between Fondation Valery, Elk GMBH, and Plastiks, including the financial and operational framework outlined for the implementation of the pilot.

Furthermore, we confirm that UNDP Armenia will ensure the verification and validation of the relevant project deliverables associated with the Plastiks platform deployment and the traceability activities carried out under this pilot. This validation will be performed in accordance with UNDP's internal standards, procedures, and due diligence requirements as applicable to the SDG Accelerator initiative.

We also confirm that UNDP Armenia does not need to be a signatory to the tripartite or financial agreement executed between Fondation Valery, Elk GMBH, and Plastiks. Our role is limited to technical oversight and verification of deliverables within the context of the pilot and does not extend to participation in the financial or contractual arrangements between the aforementioned parties.

We appreciate the constructive collaboration established to date and look forward to supporting the successful implementation of this initiative, which contributes to Armenia's transition toward Extended Producer Responsibility (EPR) and strengthened circular economy mechanisms.

Please feel free to contact us should any clarification be required.

Sincerely,

Nelli Minasyan

Project Analyst

UNDP Armenia
